---

My name is Lora Meyer I have been in the insurance industry for about 8 years and love helping people. I was introduced to EFES through Dave Figge and I have been running leads for about just under a week and half. The leads have been great and every lead has been very friendly to let me in their home to explain their benefits. I have sold 3 out of 10 presentations so far and I beleieve with training from others in our team and upline support I want to be at 50% close ratio by February 2010.:cheer: Look forward to meeting you all in Maui in 2011.
